tldr: meltdown sub isnt even worth it for the laughs, just dont go. got perma banned for completely innocuous comments. if you do go, take some tissues to wipe their tears

i discovered it for the first time the other day...i was shocked but not surprised to find that such a Dark World version of our beloved gme subs exists. many many posts about how were dumb bagholders, ppl ranting endlessly about how our cause is so weak that we have to censor and ban anyone that doesnt agree, ppl with such little positivity in their lives that they are still hanging around making fun of apes 'over a year after the apes lost' as they proclaim. it's a sorry state of affairs and im not trying to encourage anyone to check it out or fuel their cause. they are not open to reason and are masters of psychological troll attacks

i just wanted to note how ironic it is that me posting a couple relatively neutral comments was enough to get me perma banned on day 1. for such a heated group i guess they cant even handle a simmer

this is a pointless post idk lol

dont go there lol theyre a very sad bunch
