1. Why and how did the "craze" start. Nearly all of this was known for months prior. Where is the critical examination of the first 5 days. Who first had a breakthrough and what was the nature of it?
2. Pink had a pretend fight and created a fake sub-forum. The only thing she did with it was restrict access and pump Computer share.
3. Why was / is there such a large bot percentage pumping CS? Not sure if CS talk is right or wrong but it is certainly bot supported.
4. My initial thoughts were 50 / 50 this is removing or possibly adding shares from/to DTCC. I haven't been convinced by the "arguments" either way. This is because I am discerning and others are not.
5. Are these questions so controversial? Warrant banning?
