0. Disclaimer

Aight ya degenerate bastards, welcome to TRW's scrolls 2: electric boogaloo. As always, I remind for the apes first seeing this that this post is part of a series of re-writes of the sacred screeches texts from our ape [u/alwayssadbuttruthful](<https://www.reddit.com/u/alwayssadbuttruthful/>), who's been researching companies alluded to in papa Cohen's tweets. My dude has been pumping post after post harder and faster than your wife's boyfriend pumps her while he lets you play on his NDS, so with the help of the autism HQ, we have been lazily trying to translate them from madman into meme-speak in a very Martin Luther effort to bring this down for those of you who were left confused but also aroused.

1. Sources

[this is a 1hs long video explaining the whole thesis in detail](<https://www.youtube.com/watch?v=rbJCwVoog4A>): but I know you you lazy bastard and yes, there will be a TL;DR.

[this is the original post from OP](https://www.reddit.com/r/DeepFuckingValue/comments/p1eyp6/last_but_not_least_cohens_sears_tweet_decoded/)

2. TL;DR

If you walk out of this post with one thought let it be that in this series of DD posts, you will find a lot of supporting evidence to the thesis that there are open acts of market manipulation. Tell your big brain friends about it. If you *are* the big brain, reach out. We're all still working together and we're not fucking leaving.

3.1 PART ONE: SEARS TWEET

<https://preview.redd.it/8xbinv71.png?width=720&format=png&auto=webp&s=dbc955291014337beb86b452a6a7ffbc85e8c57d>

Mah bros, m'ladies- talk about *A DAY*. I'mma preface this new meltdown by saying one thing: “**Kenny’s lil bitch ass should have just covered.**” #RIPDUMBASS

Aight, aight. Now that we got our preambles and our stimming toys out of the way, let's jump right in and take a look at something, shall we? Y'all remember this gem?

[Cause Pepperidge Farm sure as shit remembers.](<https://preview.redd.it/cbww0xrscth71.png?width=997&format=png&auto=webp&s=806b11459a37cf5931b076ff7feade5fb8c20f3b>)

When I first saw this tweet, I couldn't help but wonder wtf it might be about... Could it be a hint that maybe Sears was torn apart? Why would papa tweet this? Just for the lulz? ■

Whatever the case, I decided to put on my big boi pants and take a closer look at what happened to them. So hop on cause the SEARS Train is leaving the retard station let's gooooo:

[source: <https://fintel.io/VsoVusVshld>](<https://preview.redd.it/qj3uf35wcth71.png?width=3019&format=png&auto=webp&s=753f823e9e43f98e205debab1d4140498e8faef9>)

Check that bad boi up. Am I the only one who thinks it looks STRANGE af? What happened to investors?

[What is this? A chart bar for ants?](<https://preview.redd.it/f2w1hmg6dth71.png?width=633&format=png&auto=webp&s=b584ad1d2a064d2867176bfb1daf03eef02b386>)

So what are we seeing happen here? Investors just took off? A bit abrupt eh? You could almost say they took off as abruptly as the uncle that took me to a baseball game that one time. In the end it turns out he wasn't really my uncle but I digress.

Here's the deal- what this is showing, and this is very important, is that it becomes increasingly clear that without institutional investment there cannot be enough liquidity for options to be traded on the stock. And without there being enough liquidity for options, you can't place massive puts to short the stock to death (*aka manipulating the SHIT out of it*).

Let's check this up next.

<https://preview.redd.it/74sjmztddth71.png?width=3023&format=png&auto=webp&s=294dfbf5bf62f6b686695e54ad594df9392b3053>

Come on. I can't be the only retard seeing this, can I?

<https://preview.redd.it/eaqip6rldth71.png?width=1273&format=png&auto=webp&s=a0f5ad845aa5c7ffda8954174b560b53def18a9a>

No? What about this one? Strike a pattern?

<https://preview.redd.it/myq17yapdth71.png?width=3013&format=png&auto=webp&s=ecfb80eda625673e0c874f37aa8b357b7f83c7a7>

Here, I'll give you retards a visual aid:

Aight so- here's where OP went on to discuss a bit of a tangential point so I'm gonna break this DD into a two parter. This is end of part I. That's SEARs. **Part 3.2 will go into L Bonds**.

■■■ INTERLUDE

So I'm gonna have to pause here for a little bit to freshen y'all up on some key ideas which you definitely will need moving on (*OP's video will do a better job than I ever could*). If you already know what L Bonds are you can **skip ahead to 3.2** directly. This is also a good time to remind you to take a deep breath, relax your shoulders, unclench your jaw and drink some water.

* **L BONDS**

What is an L Bond?

1. [****For long version, click here****](<https://www.investopedia.com/articles/investing/102816/what-advisors-should-know-about-l-bonds.asp>)
2. **TL;DR version:**

This is them now. Feel old yet?

* **REPOs**

1. **What's a REPO?:** A repurchase Agreement
2. **What does it do?**

It's a financial transaction where party A sells an asset to party B with a promise to repurchase asset at a pre-specified later date. They can be overnight (duration one day) or term (most up to one year). The repo market enables market participants to provide collateralized loans to one another, and financial institutions predominantly use repos to manage short-term fluctuations in cash holdings, rather than general balance sheet funding.

3.2 [■■■](<https://emojipedia.org/play-button/>) PART II: L BONDS

Ok. This would be Part II of this DD.

So I wanted to bring a little attention to something I think is, to say the very least, quite curious. In the filings below you will notice there's this investing institution called *IFP Advisors, Inc*. You may wanna remember that name with your last 3 neurons for a little bit. You can do it. I believe in you.

<https://preview.redd.it/xy7qzh1afth71.png?width=3685&format;=png&auto;=webp&s;=1b4c89969e54eb36c09d2987f17a86a6bc2db9e9>

When looking at institutional investor filings, I never like to see them pop up on the list. On the L Bond video cited at **1. Sources**, the **IFP advisors > GWG L Bonds** issue is gone into with copious amounts of detail, but for the sake of brevity I'll try to keep it as light as my dorito greased hands will allow me to.

So with this in mind, would you like to know how many GWG bonds we found? Go on, live a little. Take a wild guess.

Bam:

[TWO POINT EIGHT MILLION bonds Ah Ah Ah.](<https://preview.redd.it/kqeygu0zhth71.png?width=780&format;=png&auto;=webp&s;=ee4cc43096de2122930a9659eb98bed77227ccc4>)

If you have a modicum of observational skills, I know what you'll be thinking “*but... OP-senpai, in that screenshot we don't see the amount of L bonds, we see the amount held by IFP Advisors...*” to which I'll say hold that thought:

[That's it. That's all the funds holding those bonds.](<https://preview.redd.it/mpwn36zlfth71.png?width=895&format;=png&auto;=webp&s;=55419f49c32a5ce115276065a75b4c544a351894>)

Don't believe me? Here, let me zoom out:

[source: <https://www.holdingschannel.com/bystock/?symbol=GWGLBONDYEARS>](<https://preview.redd.it/sraxg2toftth71.png?width=976&format;=png&auto;=webp&s;=1cad1af3a621adc7e1447180f04f3837c629b1da>)

<https://preview.redd.it/hs5kdn6sfth71.png?width=996&format;=png&auto;=webp&s;=39b7f42e06f0103ffef31b690541929063e75a03>

So let's say for once you weren't overwhelmed with apathy and retardation and, for a change, you found yourself motivated enough to go through [IFP Advisor's portfolio](<https://fintel.io/ifp-advisors>).

Don't be scared. You don't need to grow wrinkles on that baby smooth brain... All it would literally take you is 20seconds and about a solid 45 IQ points. You go on that link, you press ctrl+F, you type in “*GWG*”, and you *WILL* find these listings:

<https://preview.redd.it/vzpg6nbyfth71.png?width=2319&format=png&auto=webp&s=1dad8b22c542a3b8261fdc0995f769eb3adcb54a>

And jic and just because I know you won't do it, I'll actually take the trouble to make a stupid spreadsheet for you ok?

[\ Ah ah ah intensifies \](<https://preview.redd.it/0khdd8j5gth71.png?width=840&format=png&auto=webp&s=0c330a5c26db4e783002cc946ed1b2017c8ad255>)

<https://preview.redd.it/s5fvvim8gth71.png?width=854&format=png&auto=webp&s=d4fbad5ad00451bdd01e3c38747d9214f8adc6aa>

Ok so if you will excuse my French I think this is what you would call *FUCKING WEIRD*, no? Why would they be the *only* receivers ? This ties directly to the L bond video. \[*Note for when you watch it (which, I can't stress enough, you should)*: the underlying KC.XIX is no longer in the tailored brands portfolio.

4. Closing thoughts

If you walk out of this post with one thought let it be that in this series of DD posts, you will find a lot of supporting evidence to the thesis that there are open acts of domestic terrorism being committed through the market manipulation our Market Makers are engaging in. Tell your big brain friends about it. Reach out. We're all still working together and we're all tougher than ever.

These assholes are stealing not just your money, but your parents', your grandparents' and your forefathers' money. These fucks owe us more than can ever be repaid.

>*"We live in an era of fraud in America. Not just in banking, but in government, education, religion, food, even baseball... What bothers me isn't that fraud is not nice. Or that fraud is mean. For fifteen thousand years, fraud and short sighted thinking have never, ever worked. Not once. Eventually you get caught, things go south. When the hell did we forget all that? I thought we were better than this, I really did."* **The Big Short**

PS 1:

There's an upcoming DD that delves into the life insurance scam of these Life insurance bonds (*L bonds*) issued by the mortgage companies. More on this can be found on the original post linked in **1. Sources.** In the "[Repo Participants linked to Cayman Accounts](https://www.reddit.com/r/DeepFuckingValue/comments/o60v8y/repo_participants_linked_to_cayman_accounts/)" it was shown that repo participants are investors in Ingles Markets (\$IMKTA) and using a fund in the Caymans ran by **AB Arya Partners**.

PS2:

If there's any inconsistencies/questions/feedbacks: reach out. Not one ape can do this on their own and I'm a retard for even trying to break this down for y'all without even knowing how to read right. I'm sure

edits will happen as things start to change and be added on to. Since the time I started writing this, u/alwaysadbuttruthful has already added more information on on IFP to the original post but at the moment I'm too burnt out to add to this one.
