Think they want us to forget they need to buy back every single share, synthetic or real, when it's time to cover shorts and there is a buyback.

So that means if I never sell one gme share, theoretically moass should never end.

Because they need my share for their books.

They can't just buy the same synthetic a billion times and say they covered. They need to buy back every single share.

Fuck those clowns who throw tantrums like little babies, they can't have my shares. I want my fucking nft dividends.

That means if every ape hodls on to as many shares forever, well you do the math. You name your price. Don't under sell yourself ! I don't even know how to sell!!!

This ain't a joke fellow apes. Hodl. Just hodl. & DRS. Be the change you want to see.

Don't get excited and paper hand for a few thousand a share. ■ ■ 4ever Gme will be the new brka. Stay chill, don't dance. Don't forget these greedy fucks are on the hook for infinite losses\* & NO ONE IS SELLING
