Gabe Plotkin is creating a separate fund focused on 'long-only' investments.

If I were a fund manager in over my neck x5 on Gamestop shorts, what would I do? Start a new fund, go long on \$GME, let my initial fund get liquidated and laugh all the way into retirement on \$GME squeeze gains.

No idea if this is feasible, but it was my first thought when I saw the news [Gabe would be starting a new fund.](<https://www.bloomberg.com/news/articles/2022-01-31/plotkin-s-melvin-capital-to-raise-capital-for-new-long-only-fund>)
