Not sure if posted yet but I took some time to count the failure to delivers for 2021. Keep in mind the last two weeks of December have not be released yet.

After calculating I came up with 24,612,781 *****(Keep in mind this is just public reported information)*****

Keep in mind the public float is 62.98M which means *****reported***** FTD's equate to 39% of the float.

[GME FTD's 2021](<https://preview.redd.it/l6rx942a7ab81.png?width=744&format=png&auto=webp&s=89fd69666463cf04fe6b44ce1d2e94ff9943b613>)

None of this is financial advice and just calculation based on public information.
