

Title: DRS'ing 2nd time from DriveWealth. Why are they asking for Computershare account statement when they have all the info they need? I DRS'd last time using only the V5 form and was accepted.■■■■■

Thank you for submitting your transfer form and your account number with Computershare.

Before we process your request, kindly provide me with your Computershare account statement by using the link below.

We have seen an increase in transfer rejections from Computershare. We've seen repeat DRS Transfer requests get rejected and/or duplicate accounts are created.

Our goal in all of this is to ensure your shares are transferred to your existing account.
