I transferred 1 share from Schwab to Computershare and received it in my account on 7/13/2022. Then I transferred 27 shares from Schwab to Computershare and received them in my account on 7/20/2022.

I received 3 additional shares for the stock split for my first share on 7/21/2022.

I have not received the additional stock split shares for my second transfer of 27 shares.

I called Computershare to see what was going on and they said they are having trouble with obtaining the remaining shares from the broker. I should receive the remaining next Friday, July 29th.

Is there anything I should do, maybe contact Schwab or something?

Is this not a confirmation of everything??? ■
