Gamestop - I believe a lot of people just like me have quite a few shares and keep accumulating and only so many are DRS'd.....just wanted to throw it out there....I have a little over 8,000 shares DRS'd and more that aren't....I have 3 different IRA's that I can't move. Just thought everyone would like the reassurance that people like me are more abundant than u think. And talk shit all u want about how I'm handling it. I give absolutely zero fucks. Only use Reddit to follow this. I won't respond. I don't care. U young kids have to realize that some people don't give a shit what u think but still believe in this movement. And everyone that u might be jealous of isn't a fucking bot! Just buy and hold!
