With all the FUD out there, it got me wondering....

Who is going to be the first MSM news station that actually covers the "what if" story of GME?

What if - the shorts never covered?

What if - the HF have actually been lying this whole time?

What if - Ape's are right (which we know we are)?

What is a massive short squeeze going to do to the (global) economy on a Macro and Micro level?

Which new station is going to have to balls to give serious air time to these topics? I know it won't be Cramer, but damn, someone is missing out on a great news segment!

And, they could say they were the first.
