

Title: Is there any benefit to DRS when GME is locked and loaded to dump additional shares from the authorized 700,000,000 shares?

So as shareholders get closer to locking up the float and volume continues to fall off due to lack of available shares and the price begins to go up, Pretty sure Ryan Cohen will be quicker on the draw to offer shares from the 700,000,000 that are authorized after watching his actions on bed bath and beyond. DRS seems pretty cumbersome to try to book profits.
