Can't post in the elite sub, so if anyone here does; feel free to copy and paste the below message into that sub.

Let's get every single USApe to write their own, personalized letter to their respective Congressperson.

I'm sick of GG not helping retail, especially when it pertains to GME.

In this letter let's highlight our distain for the pseudo-legal practice of PFOF and dark pool routing. (And whatever else) you can think of) but let's make sure those two points are front and center.

I don't know if this will make a difference, but it's one of the few powers us citizens have.
