I have 200 shares at 200 price average.

I am down a FUCK TON of money you assholes.

When the hell is it getting to 200 again?

Now they're talking about IPOing reddit so all the GME communities are gonna be gone?

Get the price up already.

DRS is supposed to be working? Why the fuck is it going down then?

The subs are going to go away and we're going to be in the dark and the fucking price is gonna dip hard, like wtf?

I'm never going to sell my shares, they're almost a year old, but I am FUCKED!

When the fuck is it going back up?

I'm not waiting 5 years for some miracle.

Once it hits 200 again I am done unless Ryan Cohen and apes prove me wrong.
