So smooth but fairly tech savvy ape here, and thought "Hey lets transfer some LRC to GME Wallet and activate and get my NFTs"... Well after a week of battling after transferring \$80\~ LRC to L1, then trying to move/convert LRC to ETH to activate L2 (but not having the ETH to cover the gas) and then attempting to send \$5\~ of interest earned ETH from block-fi interest account with no success, I finally just deposited directly to L2 and got activated... I am Looking to help out smooth-brained/broke apes trying to activate their GME Wallets!! But I am not sure how to tell if you are activated or not (just looking for a handout)... I really don't want to help shills, so looking for ideas on how to make sure true apes who need activation get the help they need... I really fucking dont want to send Mayo-boy hoodlums any of my hard earned money!!!
