Today is a day I am really annoyed as a German shareholder. Being disappointed that GameStop still didn't manage to get their apparel stuff to Europe today marks a new negative highlight.

FWIW we are GAMERS. For the first time in two fucking years the now world's biggest gaming focused trading show and exhibition opens the doors in Cologne.

Yes - you read that right. GAMESCOM is on.

Now I would like my favorite retailer to give me some cool offers, special bundles or utterly insane discounts. What do I receive? Silence. Simply nothing.

So heading to MediaMarkt/Saturn this weekend to drop off some money.
