Here we have David Opolon:

From David's linkedin profile:

His current position is "Product Management, Systematic Trading Technology - Citadel Securities", before this he was "COO, ETF Market Making - Citadel Securites". Good for you Davey, however; David had another position before getting in bed with mayoboy, he was a Partner with Boston Consulting Group. Hmm this rings a bell, oh yes BCG is the company that was hired by Gamestop back in 2018 and 2019 for "consulting". Funny how David starts his position with Citadel and leaves BCG around this time... I am guessing the "consulting" provided was how the fuck can we make this bitch go bankrupt and make a bunch of our buddies stupid rich. David then gets a nice promotion with Citadel so he can take in some of that sweet sweet short position money.

That is until Big Daddy Cohen came in and shook the beehive. Now BCG is looking to sue Gamestop for \$30M in unpaid fees related to the company's turnaround. Nice try fuckers, I believe if this goes to court, all the shady shit would spill out, so it's likely just another FUD tactic by the hedgefucks to make it look like GME doesn't pay their bills.

Anyways, I found this douchebag fairly quick while looking into BCG. There are A TON of other fucks that have worked or still work at both BCG and Citadel. These fucks are in bed together. But soon those sheets will be lifted to show how naked these slimy dildos really are.
