Hello! I have a question regarding computershare. I DRSed one gme stock from IBKR. When I contacted computershare regarding it this is what I was met with.

We regret that we have been unable to access your specific account with the information you provided us. Please re-submit your inquiry along with the name and address as they appear on the account, and the name of the company the stock represents.

Computershare is best able to access an account using an account number, social security number, or tax identification number. For security reasons, we recommend that you do not release the account number or social security number via e-mail.

If you wish, you may call our office at the number listed below and have one of our representatives locate the account with a social security number or account number.

If your stock is held in a brokerage account, your inquiry should be addressed to your broker. Computershare's records do not include shares held in brokerage accounts.

One last thing this is the message I got from IBKR.

"Your DRS position transfer request has been completed and the transferred assets are now available."

Thank you very much and happy holidays!! ■■■
