I have held GME shares in Revolt (UK) since the beginning. It's only XX. I'm trying to register with computershare but I am lost as to what to do?

I've tried to search for guides on here but have had no luck!

Do I register a UK or US account? Where can I find my SRN? I've looked through all my Revolt statements but had no luck there either.

It's very confusing. I don't want to do it wrong. Thank you.
