Updates - Last updated 3rd May @ 06:15 EST

****I've taken a much-needed break from updates and am back at it today - got a backlog of hunted DD to include. Check back for a big update.****

*** **Changes implemented****

* Added list of links on top (*work in progress*)

* Removed Newcomers list of links -> Moved contents to [Resources Wiki](https://www.reddit.com/r/ddinto_gme/wiki/resources#wiki_must_know_information_as_a_gme_shareholder)

*** **Adding now:****

* Sorting/organization features

* adding more detailed TLDR & Takeaways to each link

Current main FUD tactics

* Thousands of account raiding threads with up/downvotes, awards and spam

* Divide and conquer working

* Flooding other subs with bullshit - including conspiracy crap - trying to wear us out. Put on your bullshit-filter spectacles

* [Shill recruitment: Paying \$100/post for FUD](https://www.reddit.com/r/Superstonk/comments/msd0g5/exposing_a_shill_recruitment_company_offering/)

* Attempting to associate the sub to any form of group (political/religious/etc) to discredit and separate us

* Downvoting bots attacking trending in 'Hot'

* Urging not to transfer to a better broker - some brokers allow you to sell in limbo so call up each broker and ask yourself to see if it's possible

* the usual psychological attacks - do we even get these anymore?

■ The List ■

Double-check, verify everything you read and trust nothing blindly. Few posts have 0 speculation, and most of which have a degree of misinformation. Stay vigilant and don't gobble anything up for the truth without questioning everything.
