**Bonds** down with stocks looking weak. **Chaos**  
in Sherwood Forest. **GME** up 91% in pre, AMC  
up 65%. L/S pain looks acute. Vol targeting  
strategies must be approaching further

Cboe Options Exchange Complex Order Book Issue October 12, 2021  
11:34:54 Cboe Options Exchange has identified an issue with certain complex order books where two separate complex symbol IDs were created for the same instrument for trade date October 12, 2021.

This issue impacted 445 unique complex instrument IDs. Cboe took action to disable one of the two complex symbol IDs for each instrument prior to 9:30 a.m. ET so that only a single complex symbol ID was active for a given complex instrument. However, complex orders entered using the one-step process have continued to route to the inactive complex symbol ID rather than the active symbol ID. Cboe advises until further notice customers route away complex orders in the specified impacted roots listed below.

Cboe also notes that complex orders in the specified SPX and VIX symbol IDs listed below will remain unexecutable for the remainder of the trading day. Note that the simple order books for all roots are unimpacted by this issue. Impacted roots: AAL, ABBV, ADMS, ALDX, AMC, AMT, AMZN, ANY, AZN, BA, BABA, BBIG, BNTX, BTU, CCJ, CEI, CRTX, D, DGX, DKNQ, DLTR, EWN, EWI, F, FAS, FB, FCEL, FCX, FFIV, FIVN, FL, FUBO, GILD, GS, HD, HIBL, HIG, HYLN, IHAK, IIN, IRNT, ITA, IWM, IXC, JAZZ, JKS, JNCE, JO, JPM, KOPN, LCID, LRCX, LVS, M, MAS, MSFT, MSTR, MTCH, MU, NIO, NKE, NTNX, NVDA, NXPI, NXTD, OPAD, OTLY, OXY, PAGS, PENN, PLTR, PLUG, PROG, PSX, PTGX, PZZA, QQQ, QSR, RBLX, RIDE, RIOT, RKT, RUT, SDC, SHOP, SIRI, SKLZ, SNDL, SPCE, SPY, SQ, STNE, SUNW, SVXY, TAL, TELL, TSLA, TSM, TWTR, UBER, UNH, UVXY, VIAC, VXX, WBA, WFC, WISH, WKHS, WMT, XLE, XOM, XSP, ZNGA
