Pitching a product idea here. I really enjoy the image of astronaut on the moon with a beer and the shoulder GS logo. The GS version is subtle and looks fantastic. Anybody else would like GameStop to make a patch like this? I'd love to get a 2" one as a shoulder patch. I made a quick mockup but couldn't quite get the letters to look embroidered. Hell, they could make black hoodies like RC's. with it or ballcaps. Even different versions that people could collect like Pokémon badges: DFV- black with with red "bandana" border, DRS- purple ring border, RC -all black, Real moon background, a pixelated moon gamer version, etc... I just wanted to field this idea to the masses to see if they'd pick it up. Let's make GameStop some more money! (Reposted with image after two failed attempts)
