OCC-2021-004 - **Order Granting Approval of Proposed Rule Change Relating to Revisions to OCC's Auction Participation Requirements**

Now with NSCC-2021-010/803, members are able to swap their collateral for cash to pay their short positions. This collateral is then held by the DTCC, who can then AUCTION it off if/when the member defaults and can't buy back their positions.

This is STRAIGHT F*CK*ING Monopoly rules.. You can't pay a player, you mortgage your property, can't buy back the property from the bank it gets auctioned off to the other players.

Thank God Hasbro didn't need 346 pages to spell this \$#!^ out.

But back to OCC-2021-004 we now know how DTCC is going to take possession of the positions of defaulters which are then going to be auctioned off.. A la NSCC-2021-010.
