Hey all,

When opening my gamestop wallet, it says failed to fetch account balance. It won't let me switch from L2 to L1 or view any other tabs in my wallet. I was going to send some Eth there, but will wait til it's back to normal. I did buy about \$120 in Eth using Ramp. The transaction was successful, but that's when my balance stopped showing.

Any suggestions? Maybe just try and recover using my phrases? Where do we report bugs?
