PANTHEON - PART II: CITADEL'S NETWORK

****NOTE:**** If this DD looks familiar, it's because it is. This is a repost of a prior DD I wrote, with a shiny new title. I won't go into details here, but [here](https://www.reddit.com/user/Cryptids4Sale/comments/ofzb1d/an_update_regarding_friends_in_high_places_7721/?utm_source=share&utm_medium=web2x&context=3) is a link to a post on my personal account page to clear it up. Long story short, this is a do-over, AND, the start of a whole new series, but more on that later.

****TA;DR -**** By virtue of being the largest market-maker on the exchange, Citadel, and by extension, Kenneth Griffin must obviously have some important connections, right? Well, he does, and this DD lays them out so that all apes can have names and titles associated with what were once shadowy figures pulling the strings in the background. These connections range from Wall Street all the way to the heads of government; some of the biggest including the current Secretary of Treasury, the Governor of Illinois, and, of course, members of the boards in charge of managing Wall Street firms. It's a long list, but that's the point! Read on to see more connections, and be on the look out for later entries!

****Disclaimer:**** All the information presented here is sourced from publicly-accessible sources. This post is not intended to be defamatory or accusatory in nature. Any speculation on the part of the author is just that; speculation, and not intended to be taken as fact. This is not financial advice.

Introduction

So first and foremost, this DD is a bit long. 12 pages of just notes, in fact. Sadly, it doesn't reveal any enormous bombshells about specificities of financial crime on Ken's part, or catch him with his pants at his ankles and his weiner in the industrial-size mayo jar, or anything crazy like that. It's simpler than that; it weaves the web of his elite connections, and puts them on display for apes (and the public at large) to get an idea of which people in high places might be calling in favors. And those things **should** be on display; connections like that are absurdly unfair at best, and deeply criminal at worst.

So as you're reading this, that's what I want you to keep in mind: If this is everyone that just Kenny knows and can potentially ask for favors from, **how fucking many other connections exist between all the rich people in America? In the WORLD?**

This is bigger now than just GameStop, this is about pulling back the curtain and showing how the sausage is prepared, cooked, sucked on a bit, and then consumed. You know... In a macro-economic sense. With all that being said, put your mother fucking spurs and ten-gallon hats on, shove some deep-fried, bacon-wrapped twinkies down your disgusting, morbid gullets, and let out a rebel yell in a show of patriotic superiority, the rodeo is back in fucking town!

[oh god oh fuck oh god oh fuck oh g-](<https://preview.redd.it/1spk5yw0i1a71.jpg?width=1200&format=pjpg&auto=webp&s=4c3508131984b26898744ef61e04f45fdb1e7412>)

Table of Contents

1. Ken's Connections Through Chicago Organizations
2. Ken's Connections Through Political Donations

3. Ken's Connections to the Financial Sector
4. Implications / Conclusion
5. Bonus Round - Extra Tinfoil

Final Warning - This really is a long one, strap in and get comfortable if you actually care to read it all; if not, I recommend jumping to the "Implications" section.

(Especially interesting connections are italicized for emphasis)

Griffin's Connections Through Chicago Organizations

** These are just lists of people that happen to be in the same organizations as Ken; this may not guarantee a connection present between the two, but it does imply that they would have the opportunity to create a connection. Also, some organizations are listed but not fully discussed due to the sheer volume of members and/or a lack of titles to confirm it is the correct person; by all means though, please feel free to investigate those connections at your own leisure! **

Lobbying, and Other Sins - Griffin's Connections Through Political Donations

The following section is basically the list found on Ken's Wikipedia page, with some slightly beefed-up information, namely adding the states and/or districts of the representatives that have been donated to. That way, if you belong to those representative districts and feel so compelled, you can make your preferences for this type of behavior known with your vote. Or don't, I'm not your mom, and it's not like it

fucking matters anyway. Fucking god-damned gerrymanderers, there had ought to be a special circle in Hell for shit like that. Fuck outta here with that manipulation of voter areas for political gain.

Also this isn't me personally condemning either political party, and I'm willing to take a chance and say no one really wants to hear what my political thoughts are on the matter. Or yours. I see you back there, fucking anarcho-monarchists, your political system is confusing and lame. Let me leave it at this: swords distributed by watery tarts in lakes. That's all I have to say about politics.

Streets Ahead - Ken's Connections to Wall Street, Hedge Funds, and it's Regulators

Okay so this is pretty much just a list of current Citadel higher-ups and previous roles they've held with other hedge funds and regulatory agencies. Or current positions held with other hedge funds and regulatory agencies. *But doesn't that likely create a conflict of interests?* Yes, yes it does; very astute of you, ape. Have you ever considered taking up consultation work? They probably wouldn't want you there, you'd point out all the illegal things.

Implications & Conclusion

Let's take a minute to just think about the magnitude of what connections like this mean. Take a moment, imagine yourself in Ken's body. Living in his body, I mean, not the other thing... You're the single largest market maker on the New York Stock Exchange, you're obscenely wealthy, you're three jars of mayo deep and it isn't even noon...

In such a position, you have connections to not only other hedge funds in the market, but also to the fucking regulatory agencies that oversee them, the owner of the exchange himself (Jeffrey Sprecher), and to the government that passes regulation about the market.

You have employees that came from other hedge funds and know their ins and outs, and some of these hedge funds have notorious histories of fraud... And some of those employees are legally responsible for balancing your books (Northern Trust).

I'm sure it's beyond obvious at this point; this is *fucked*. By no means should this ever have been allowed to happen, but it did, very purposefully, to protect the wealthy and to continue the cycle of abuses we still live in to this day. I mean, just listen to the [Carlin](https://youtu.be/Nyvxt1svxso) bit and you've got a perfect summary.

The people that step on us have names, faces, addresses, and histories. They're real people that are really out there, not just some hazy collection of Lizard People watching from the shadows. This is bigger than tendies, this is bigger than GameStop, this is bigger than Kenny's boner for mayo. Follow the money, find the names, put them out there in the world, and demand that they be held accountable for actions that impact the lives of everyone but themselves. HODL

Sorry this DD wasn't as funny as the last one, here's a picture to lol at.

If you're interested in looking for more evidence of potential collusion between hedge funds and the US government, look no further than u/sharkbaitlol's CHAOS THEORY DD. Here's a link to all the different parts. This is, again, one that can't come to any certain conclusions, but it does imply that such connections are possible.
