I woke up to news of many of you brigading the subreddit of the employees of Gamestop and God I felt sick. I have a one in a billion, a once in a lifetime chance to become rich thanks to this company and you ret4rds are not going to take this away from me. Nobody from this subreddit calls your company or emails you and tells you how to do your job or if certain raises are good or bad, so for fucks sake leave them alone.

Jesus, I've been here since the beginning and I've closed my eyes on all the bs you guys post and do, but this is next level. You are fueling r-gme meltdown. It was fucking HARD getting here, and all it takes is one mistake. So watch your ass next time and don't put your nose in stuff there is no need to. And for fucks sake remove those goofy emojis from the flares, we are not a children subreddit. Some of you really forget who we are and what we do.

This shit is the most expected shit when I see constant approval and people laughing at the face of RC on women dancing, or calling him dad and naming your kids after him. You just don't know where to stop.
