I bought my GME shares through Bolero (online broker). They can't DRS them, and their own reps don't even fully understand how I can transfer my shares to IBKR so I can send them to CS, I've called 3 times and sent 2 e-mails already and I still haven't gotten a decent response. The 2nd rep made me fill in a wrong form though, which they couldn't use of course.

Any Belgians here that can help? Can't post in other subs due to low karma.
