Introducing account transfers into Robinhood

Starting today, transferring your assets from your other brokerage accounts into Robinhood just got a whole lot easier. With account transfers into Robinhood, you'll be able to consolidate and manage your investments in one place. Currently, you can request a full transfer of eligible assets from any individual, non-retirement brokerage account. Eligible assets include stocks, ETFs, certain options contracts, and [more](#). You can begin your transfer in a few simple steps—we'll do the rest.
