Apes i need some guidance

Since I'm kinda broker right now, a thought came to mind.

I have a IBKR account, can i for example buy like \$50 dollars worth of GME and DRS that in order to open my CS account or does it have to be one whole share ?

I definitely don't have money for giveashare

also, for UK apes how long does it take for IBKR to send to CS and the for CS to open and send all your details all the way to the UK?

When your CS account is open can you buy from there directly ?

Is your CS account only dedicated to GME or can you buy shares of other companies once you have just one CS account ?

Is wise a good way to send dollars over to IBKR or CS for future purchase ?

If anyone could help that would be greatly appreciated. Thanks

Edit: sorry if these questions have already been asked before by other apes.
