I feel like people talked about this for 5 minutes and then just moved onto something else (speaking of Hester Peirce getting the SEC to agree to keep things cloak and dagger)

By delaying the audit procedures and thus hiding all the paper trails for all the crime for 2 more years, did this in essence just pour water all over our fuses?

This was a hot button issue for a second, and then just disappeared.

I'm still sort of unclear about some of it, and wonder if it's a big deal or will GameStop just eventually make it moot anyway with NFT success, massive FOMO buying, a possible NFT dividend after the splividend,etc?
