Has any Etrade ape or just anyone in general completed their drs transfer yet? I started the transfer last week and its been 5 business days... I followed up today on the phone and they're saying operations is still working on it and that they would call me back when they got more info as to why it hasn't been done yet. Not sure if I'm just being impatient or paranoid but until I see the shares in a Computershare account I am going to keep calling and pressing them.

I hope everyone continues to DRS.

**\*\*Buy, HODL, DRS is the way.\*\***

EDIT 1: Transfer has been completed!!! LFG
