

Title: Anyone else think it's interesting ByeBye baby was bought for 67m in 2007 and RC cashed out at 68m Profit?

No wrinkle brain here, but what if Ryan Cohen sold at 68m with the expectation that an impending acquisition of ByeBye Baby was imminent. His JFK quote would resonate as RC Ventures would have a tax implication, but when looked at over a longer period of time you could view this as a discount of sorts to Ryan. Selling off his shares to finance the acquisition would provide an influx of cash to the remaining BBBY organization as well so maybe this helps their balance sheet issues?
