I know most of us seen his tweets and I know there's a lot of people of various GME subs who are tired of seeing or they are protecting him, but I find it interesting that he referred to "We" as if he was speaking upon others in his circle about a movement of some sort. The tweet went out this morning before the opening bell.

Does he know we just are a bunch of investors in a company we like?

What movement are we talking about Crammer and who else is getting mad with you?
