****Similarities between BBBY and GME:****

* Both stocks are heavily shorted.

* The float is already bigger than outstanding shares.

****Difference between BBBY and GME****

* About 15% of shares from GME have already been transferred from Degiro, Etoro, IBKR and so forth to Computershare.

The news (RC Ventures Letter) was published on Sunday. The SHF may have been surprised by this move and caught on the wrong foot. Should this be the reason for a margin call or liquidation, one could see what steps are taken by MSN and SHF.

As we already know, brokers can just liquidate our assets for no reason whatsoever. ****I now come to my point, where RC wants to show us how important DRS is and motivate us to register 100% !****

Please Dont bash it ■
