When we all first bought our stocks, we all thought `` hey let's make money and fuck those corrupted entities``. For me my mindset haven't changed , i want money and i still want to drop an anvil on those crooks.

****THE BULLET IN THE CHAMBER****

The bullet as been in the chamber for a long time , we have been waiting the holy moose, looking some passing and thinking meh it's not big enough i will wait the next one. In all reality when you hunt sometime you see 2-3-4 prey but some other time it's a 1 in a life opportunity.

Buying the float as been the bullet in the chamber, we thought , hey it's in the back, hedgies are fucked right?

But loading the gun doesn't kill the prey or give you a good angle on it

[Loading the share](<https://preview.redd.it/n78gb2a6cro71.jpg?width=1000&format=pjpg&auto=webp&s=83318d7316af9ee873d585dbfc5bbf6fd6f11b86>)

****ANGLE TO TAKE FOR A BETTER SHOT****

It's important to understand that the angle we take for that shot is primordial, as a hunter i know that the setup is as important as the shot in itself.

That's why hunter take so much pride and time to invest in the setup like a balcony or even climbing in trees, the shot as to be perfect and well planned.

We place our investment in many places so far but the experienced hunter always taught us that DRS was the way to make our shot perfect, DFV, RC ,DR.T even that guy from IBKR.

DRS is not only the way it might be the only angle we could get to get that clear shot on that bear, do you want to miss it, because i did invested everything i have and i expect that bear to pay me back. There's never been an exit, it always as been about trusting that the time frame for that shot will happen.

Maybe we don't know it but 100% DRS might be our only way. I see people saying but i want keep share to sell, well once the squeeze start , there will be no fear of them getting back share on hand. Once price is too high, there's no way back down, it's a 1 in a lifetime opportunity. You either deeply want it or you don't. It's time to show the bear who has a gun.

It's time guys to climb in that tree, look at our trap and wait for the bear to make his move.

[We got the right angle guys !](<https://preview.redd.it/7fzm2l74fro71.jpg?width=558&format=pjpg&auto=webp&s=7261bf7fd6f965a2682cb10ff665a939931db1d1>)

****THE SILENCE BEFORE THE SHOT****

It's important to understand that once you are in your spot, days, weeks, months can pass before the bear finally show up. But 1 thing matter, will you be awake, will you see it, will you be aware of its presence?

I will not let an other chance to the bear to walk pass me without noticing it. Once DRS of our share start, the waiting time start. Let me tell you if you fall asleep , you might miss it, if you look away and are not focus, you might miss it. Remember guys it's a 1 in a lifetime opportunity.

But don't lose confidence at this point, we waited a long time for this and just lately discover DRS. The experience hunter told us it's the best way to hunt bear. We tried everything else , and it never worked, it's time to give this thing a shot.

But like focus on the waiting time for the first sight of a bear, the number of share you decide to or not to DRS is all up to you. It could be 5% or even 100% nobody can be mad at you because it's your wealth and you decide in the end what you do with it.

over 28% (edited because i initially fucked Up the math 65% was way too high i added the x to xx count by inadvertance) of the share are hold by retail who own less than 5 share. It mean that if everybody leave 1 or 2 share. We might not make it. I repeat it's a 1 in a lifetime opportunity do the unexpected. Do what the bear usually think you wont do.

But just be aware that this is a 1 in a lifetime opportunity, would you like to miss it because of 1 share that everybody thought wasn't important?

[We are waiting as always!](<https://preview.redd.it/4afd6q5afro71.jpg?width=1080&format=jpg&auto=webp&s=b44c0f09bad8cdd50a58ff122edfd9a355d94d93>)

****THE BEAR IS IN SIGHT****

The bear had use many tactic in the past month to avoid us , many say they didn't work, but in all reality we never saw him , and the shot never went by now. We got it i'm ball deep and more bullish than ever that we got it.

I love you all guys , like DFV said ``my heart goes with all of you `` , i love you guys, i love you guys.

We got this the setup it's right in front of us, we got this , let's take that bear down and bring its skin home so we can share the meat with our familly. Be proud of what we are fighting but don't scream otherwise the bear might be scared. Stay silent wait.... wait.... wait...

The bear will show up but don't sell its skin before we even killed it, as far as i'm concern i got no millions in my bank account.

Live Today differently than yesterday so tomorrow can be different. Do the unexpected. Do what they hope we won't. We might be retard but we got where we are right now and the old hunter gave us the setup to get that shot. Don't miss it guys because of the value that we have been saying is wrong ``Those crooks are GREEDY``. Like them leave share in broker might be our ultimate mistake.

Learn from their mistake, let's not greed and take this prey home guys, it's now or maybe never.

I'm ALL-IN just like with a pocket ace pre-flop in a multi million dollar poker game. We got this. I love you all guys. I'm 100% DRS nothing less.

[The bear is insight](<https://preview.redd.it/r5we9t4chro71.jpg?width=640&format=jpg&auto=webp&s=b79930fe27d51ed44d5abfccb397733f8101467e>)

But remember we don't sell the skin before killing it, now it's all by individual doing their part that you will bring this monster home.

I LOVE YOU GUYS, ALL-IN DRS!!

We will take it down.

We won't fail.

We are the hunter.

They are the prey

The bear are in danger.

****BBBBBAAAAAAANNNNNNGGGGGGGG****

[Only history will tell if we got it or not](<https://preview.redd.it/zu16cd73kro71.jpg?width=1280&format=pjpg&auto;=webp&s;=9a4571b22f1f1e56c747a0929f6cc8da05c643cf>)

TLDR: Don't sell the skin before killing it. Make your own individual opinion on DRS. But understand it's a 1 in a lifetime opportunity and with the greed of leaving 1 share in a broker, collectively we might miss the shot.
