Feel free to post in superstonk, im low on updots. But here me out...

Havent you ever wonder when we will get to the point when they will let our baby run and burn down the wallstreet with it?

Well, one piece of the puzzle wasnt there. The insiders couldnt buy in and benefit from this play. Until now... With the new "set up your own one stonk ETF" the insider buyin rules dont kick in and you dont have to report your buys.

If you thought you have seen a Teachers pension fund burn, you havent seen nothing yet. Nobody cares for the shitadel itself, they care about their own wealth.

THEY. WILL. BURN. IT. TO. THE. GROUND.

I know im right, and im not even that early. Shit is about to go down soon...
