I'm trying to get more people to interact with their Gamestop wallets. No catch, just drop a comment with your L2 wallet address if you want a copy and I'll send one to each of the 25 first replies!

I don't use JS at work so this has been a fun learning experience too.

If you wanted to drop me anything to support development, my address is

Edit: The game is a bit janky but it's fun until it dies!
