As the title says:

* "No Cell, No Sell" is infinitely more than an idealistic, catchy phrase

* It's the reason you don't have to trust-me-bro that your fellow DRS'd GME hodlers will paperhand their shares for ANY NUMBER below what we all know it will reach

Here's why:

* Kenneth C. Griffin & his hedgie peers know that to close out their massive naked short GME positions is to *cause* their own forced liquidations because they shorted more GME than exists (by *far* more than 2 times the publicly available float)

* Which means, they *must* fight to their own financial deaths- they cannot close because they have no other choice

* When they are finally force-liquidated, there is (IMO) absolutely no chance they will already be in cells

Enter "No Cell, No Sell"

* Over the entire time it takes for these financial criminals to actually be placed in cells, the price of GME will climb, and climb, and climb, and climb, and climb, eventually reaching numbers that are not memes

* Because we are hodling for *REAL CHANGE* that will *only* come about when these criminals receive the Bernie Madoff treatment (i.e. a prison cell), the *NUMBER* that we each individually decide is right will, by default, be astronomically high

And THAT is if we ever sell AT ALL, because we don't yet know just how otherworldly RC's plans are for committed GameStop sharehodlers.

[IT'S A FUCKING COMMITMENT TO REAL CHANGE](<https://preview.redd.it/ev3z67tcu1691.png?width=1576&format=png&auto;=webp&s;=8ff6202c309131ebfb97a3d25ba9aa8459f56421>)
