I wanted to DRS my GME shares from robinhood, and their support person told me that it was impossible. I then asked to transfer my shares to fudality, and robinhood support told me that fudality must do all the work and request the transfer. I jumped through all those hoops and robinhood charged me \$100 for transfers my shares - even though they did none of the work.

If you are holding anything in RH you are asking to get taken advantage of. Get out of that shithole of a brokerage ASAP!
