(Disclaimer: long time mostly silent zen ■, not enough ■■ to post on SS, initial buy in was pre Jan 21 + keep adding. I like green crayons over red ones).

As per the latest figures on <https://www.computershared.net/?bot=drsbot>

Remaining shares outstanding (after Institutions, MFs, ETFs, Insiders and DRSbot) currently sits at about 71.5mm shares (post divy figures).

As per Yahoo finance (7/15/22) GME short shares 59.2mm.

Assuming DRS shares are ■■■■ to ■

APEs (real ■ eating ones, not the imposter ■ ones) need to DRS about 13mm more shares before shares O/S to short shares are at a 1:1 ratio...

No dates. Buy. HODL. DRS ■

NFA. I like the stock. What's an exit strategy?

BUCKLE da FUK UP!

No cell, No sell!

Waiting for 🍷 numbers

What a time to be alive! ■■
