Is the Citadel Logo some sort of encoded I Ching/King Wen hexagram?

Sometimes synchronicity's a bitch... Cultural Revolution in China overlapped Harvard's Culutural Revolution timing wise. Not necessarily related, but wouldn't be surprised if not guided by the same hands given Kissinger's ties to both and timing.

Lots of Citadel management and backend are potentially Chinese assets...Kenny is the frontman.

Philip K Dick references tie in...

Cixin Liu: Three Body Problem references tie in (Obama endorsed, odd for "science fiction" novel)...

just tinfoiling for a moment and wondering aloud...

(others have pointed out the role/logo similarities of Enron as well...)
