Forgive me if this has been asked before, please direct me to that post if so.

I decided to purchase \$2k worth of GME shares direct from Computershare last Wednesday and received confirmation from them the same day. On Thursday, \$2k was taken from my bank account for this purchase. As of today, I still don't have any new shares of GME in my Computershare account and nothing shown in the pending transactions tab.

Does anybody know how long it usually takes Computershare to show my new purchased shares in my account? It's been 4 business days since money was removed for this, but I didn't think it would take this long.

Any help would be much appreciated. Thanks fellow apes! ■■■■■■
