Hey ladies and gentlemen, I was just trying to set up my gme wallet when I ran into some issues. I already have a fully funded Loopring L2 wallet and would like to activate my gme layer 2 wallet using the funds from my Loopring wallet. As a retarded ape, how would I do that the easiest way? It seems I can't send anything to the layer 2 gme address yet, so would I just sent it to the L1 then move it to the L2?! Idek I'm so confused hopefully someone can help a smooooth mf like myself
