Welcome again boys. I apologize to anyone that just simply hates the way that I am presenting my information. My mind works a certain way and i can't change that really. If confused seek help from eachother. This community is AMAZING and I am proud to be part of the gamestop family.

[my dumass made it with one word from each site on their page. I like the stock:)](https://preview.redd.it/ijl ept91zcj71.png?width=423&format;=png&auto;=webp&s;=43f698aa4d6abb1faaa369d0ed55740b9c66895 d)

So. About vangaurds holdings and performance and "accounting errors" ... Let's take a look.

Here is their holdings sorted by highest % returns:

[6000% return is a hell of a good move yeah? pfffffft.](https://preview.redd.it/tps6kym71dj71.png?width=1 312&format;=png&auto;=webp&s;=81c7e0dad4fc0a584d8f4a6b916025eaaf34efe8)

here we show 8 positions above with CRAZY returns and a huge amount of allocation. PLEASE NOTICE AMC AS #11 ON THIS LIST. 497% off of their holdings into that position. \$AMC was PROFITABLE for vangaurd. I guess ill open that shit up for you now.

[They seemed to like the stock in 2021.](https://preview.redd.it/z0kanoaq1dj71.png?width=1020&format;= png&auto;=webp&s;=f1f847885dc8313bf87c4cec5211be9d9d9bcbd3)

I would like to show that the 4th position has -allocation, -cost,-profit , and -return. Equity Return Swaps anyone? I believe this is where that current DD on equity return swaps would come into play. <3 500% huh? let's peep the 13f to see how many managers for this holding.

Shows ownership at one point of 43M shares. Sole owners. Then they shuffle this around 4 times(four managers on the listing to the right of "dfnd") to create the 500% allocation. O.o Wut doing vangaurd? Who you loanin it to? Maybe Kenny. Maybe Kenny's mom. We don't know because they keep it under 99 investors/managers so that they don't have to disclose who, according to the investment act of 1940. Laundering 101. Let's see what they got on GME in the recent 13f.

Yup. Same thing. Small percentage of their holdings were shuffled around. Interestin.

[This display of their positions into GameStop show that they've been eating shit for awhile. Please someone confirm for me , a plausible way that these -'s are from swaps.](https://preview.redd.it/7iqq4e563 dj71.png?width=1267&format;=png&auto;=webp&s;=579d912f205caf01ec6ac85a23b94a4e41f55c0f)

Now the, starting with most negative % returns in the holdings.. *Cough cough*\

It would appear that they seem to have a pattern of receiving a -cost basis position, then it turns into an abundant return. Wise investing you say? I say this is odd and should be looked into. Together with all the other players in this raid. We can easily learn together. Please help me start a discussion instead of saying "accounting errors" in the market makers portfolios are acceptable. Babbage would be crushed to see his dream shit on in this way. You knew better. All of you. Who are you to steal like this? I am an American. I believe in the constitution. I believe in freedom of speech like I believe in a TRULY free market. I say directly to your faces, Give me liberty, or give me death. I refuse to stand idle while your corporate expanse continues. Realize there is a global corporate expanse take over everything. Glass houses. I see glass houses everywhere And it would appear all the players have rocks.

(this isn't finished) will build on this more tomorrow. I have an idea of how to follow this up. Will return to detail more.
