The maker of the video made it with under 4000 pounds, hah!

A deep study on Off-shore account and how corrupt it is. How the wealthy and powerful keep their money and assets safe from taxation and transparency.

The documentary details deeply on how Off-shore haevens. Treat yourself to this video!

As i understand from the video, say someone has \$100M of dirty money or wants to evade tax, one simply needs to find a trustee in British Off-shore havens, say Cayman, take the assets or money there, make a ****Trust**** with the Trustee and put it in there. At this point the British Govt. only interferes if the deal is between Brits, two citizens of other nations they ignore and has nothing to do with the Trustee, as far as the Govt. is concerned. The most interesting part of it: The assets or money is considered not owned by the depositer nor the trustee, as far as tax is concerned. Isn't that funny?

3/4 of all Hedge funds have offices in Cayman.

All of our money is in Cayman/Bermuda/Jersey/Panama brothers \$GME
