Job Description

Financial Crime Officer - North America - (210002SV)

Description

Location: Baltimore, MD

We give you a world of potential

Calling experienced Financial Crime Officers!

Computershare has an exciting opportunity for an inquiring-minded individual to embark on a journey that will see you exposed to a large variety of projects and initiatives, building your investigative knowledge in Financial Crime and adding value to the transformation agenda of a global, financial services organisation!

The Global Financial Crime Unit provides a centre of excellence for the provision of Financial Crime Risk Management services on a global basis. The North America team aims to prevent, detect, and respond to all suspected or confirmed financial crime incidents – internal or external – across all business units within region of responsibility. They do this through a combination of deep functional expertise, solid understanding of the business imperatives and knowledge of modern financial crime risks. They endeavour to minimise net fraud losses and exposure across all company operations utilizing effective and best-in-class prevention and detection strategies.

If you have a passion for investigating and mitigating financial crime, and a desire to be part of a globally-diverse organization, then you need look no further for your next opportunity!
