[Link to the download data](<https://www.nyse.com/api/regulatory/threshold-securities/download?selectedDate=08-Feb-2022&market;=>). The first time it showed up in the threshold list was for [20 Jan 2022](<https://www.nyse.com/api/regulatory/threshold-securities/download?selectedDate=20-Jan-2022&market;=>).

Apparently the first trading day for the ETF was 31 Dec 2021. It was added to the Regulation SHO threshold security list after 21 calendar days (since the data is updated after EOD) and 14 trading days. It spent 18 calendar days and 12 trading days on the threshold list.

[From ETF.com](<https://www.etf.com/stock/GME>):

- * TMFX
- * GME allocation 0.41%
- * Market value \$101.81K

[The chart for TMFX](<https://www.tradingview.com/chart/?symbol=AMEX%3ATMFX>).

XRT is the only other ETF that contains GME that is currently on the threshold security list as of writing.

- * XRT
- * GME allocation 0.72%
- * Market value \$2.67M
