

Title: Fellow apes, has anyone else run into this problem? Fidelity won't let me transfer shares due to receiving stock compensation from my employer? Any advice is appreciated

I can help you with this request. Making the decision to directly register these shares will result in your shares no longer being held at Fidelity. Please confirm that you're comfortable with this decision by responding yes, or let me know what questions you have.

Yes I would like to diversify and hold shares with both Fidelity and Computershare. That's why I would like to transfer ~~all~~ my shares

Perfect, it looks as though it will not allow me to push the request through due to the account being linked to stock plan services. However, let me get the contact information for that team for you. This will just take a moment.

Are you looking the individual account?
