Hello all,

So sorry for the delay in getting this up. Last week became unexpectedly busy between headache remediation, a quick trip out of state, and falling ill.

I was reminded recently by RAB that ****I**** was the one that initially said not to worry and that /r/ratioatblessons would grow and develop organically into whatever the community wanted it to be and the poll reaffirmed that!

The results are in. ****I like the variety of content currently on**** [r/ratioatblessons](<https://www.reddit.com/r/ratioatblessons/>) ****and would like to continue seeing the variety**** took home the prize with 40 votes to 27. All content regardless of direct relevance to investing will continue to be welcome in the subreddit! As always, please remember to keep all conversations civil. Discourse is welcome, hate and bullying is not. If you see a post or comment that you feel treads the line, please report it (reports are anonymous so mods will not be able to follow up or discuss further with you) or [send the mods a message](<https://www.reddit.com/message/compose?to=/r/ratioatblessons>) which mods will be able to follow up on.

To start out with, two new flairs have been introduced, ****Tinfoil**** and ****News Articles.**** Additionally, today I'm introducing the new ****Rabbit Hole ■■■■**** flair to help fill another gap that exists. Over the next several weeks we can continue to workshop flair adjustments as well. Please put any suggestions you may have for flair in the comments below!

****Thanks so much for being a part of**** /r/ratioatblessons! ****This subreddit is nothing without its community! If you're new here, please check out the**** [****welcome post!****](https://www.reddit.com/r/ratioatblessons/comments/n7fp4s/welcome_to_rratioatblessons_please_start_here/)
