There is a metric shit ton of forum sliding going on imo.

(All of the forum sliding/manufactured drama on every GME sub right now... come on...)

In addition to no mentions of the Fed insider trading scandal unfolding on any of these subs, there is also this.

Side note/mini rant: I would post from my main account, but a shill got me on a multi day suspension for "harassment" whilst claiming they would report me to "the Feds" and also reported me for mental health/self harm. They did this while calling ME a shill, even after I showed them my DRS'd shares.

Also. I have no intention of ever harming anyone, including myself. Stop reporting me for self harm.

Look around supastonk and elsewhere. It's a shitstorm...tons of noise, tons of posts driving a narrative about MSM from the WSJ, many duplicate posts, same narrative.

You know what - whatever - be careful is all I'm saying.

Noticed a large uptick in hostile, toxic activity and a lot of \*narrative driving posts.\*

Someone got my account suspended for literally having a different opinion than they did, FFS. That person was a shill.

Ok back to business.
