I've just been to the USPS website regarding international mail and came across something relevant for anyone ordering GME through Giveashare or waiting for their DRS letter from Computershare. Due to COVID restrictions they list a number of countries affected by this. The list is last updated 3rd of May.

The link will show you all countries affected by this in case you have been waiting longer than usual and looking for an explanation. I know we have a lot of German apes here so I thought this would be some useful info.
